B. B. A. (THIRD SEMESTER)
MID SEMESTER EXAMINATION, 2019
BUSINESS ENVIRONMENT

Time: 1 : 30 Hours

Maximum Marks : 50

Note : (i) All questions are compulsory.

(ii) Answer any *two* sub questions among (a), (b) and (c) in each main question.

(iii) Total marks for each main question are ten.

1. Attempt any *two* parts of choice from (a); (b) and (c). (2×5=10 Marks)

(a) What is meant by Business Environment ? Discuss various importance of Business Environment.

(b) Define Culture. Explain the impact of Culture on Business.

(c) What do you understand by Economic System ? Enumerate the basic units of Economic System in detail.

2. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) Explain the problem of Small Scale Industries, faced in India.

(b) Compare and Contrast various types of Economic System in detail.

(c) Explain. the importance and limitations of Environmental Analysis.

3. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) State the impact of Socio-Cultural Environment on business.

(b) Explain SWOT and ETOP analysis in

(c) Distinguish between Micro and Macro Environment

4. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) With the help of Porter's Five Forces model, explain competitive structure of industries.

(b) Discuss significance of understanding the environment of business.

(c) Explain the role of Public Sector in Indian Economy.

5. Attempt any *two* parts of choice from (a), (b) and (c). (2x5=10 Marks)

(a) Explain the meaning of Smail Scale Industries along with its various characteristics.

(b) Explain the concept of CSR along With responsibilities towards various groups in business.

(c) briefly explain various elements of business ethics and why business ethics is necessary in business.

BBA 302

B. B. A. (THIRD SEMESTER)
MID SEMESTER EXAMINATION, 2019
MANAGEMENT ACCOUNTING

Time 30 Hours

Maximum Marks 50

Note : (i) AU questions are compulsory.

(ii) Answer any *two* sub questions among (a), (b) and (c) in each main question.

(iii) Total marks for each main question are ten.

1. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) What do you understand by management accounting '1 Define the scope of management accounting.

(b) What is break-even chart ? Explain all types of break-even chart with suitable examples.

(c) XYZ Co. Ltd. is producing packing cartons.. The competition has been

increased in the market due to which the company has to reduce the selling price. If the company wants to maintain its existing profitability, then how many units the company has to sell, if it reduces selling price by :

(i) 10%

(ii) 20%

The other information is given as under

Sales (40000 units)	4,00,000
Materials	30,000
Labor	70,000
Fixed cost	

2. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) Explain with the help of illustration, the difference between expenses, expenditure and overheads.

(b) Calculate the composite break-even point from the following information :

Selling price ₹ :

(i) 20

(ii) 40

(iii) 30

Variable cost t :

(1) 12

(ii) 30

(iii) 18

Sales volume (units) :

(i) 2000

(ii) 4000

(iii) 2000

Total Fixed cost

7600

(c) B Private Limited is producing component Z. It is under discussion whether to continue the production of Z or to purchase it from outside supplier.

The annual requirement of component Z is 15,000 units and the lowest quotation from outside supplier is 7 per unit. W it is manufactured then the following expenses are incurred

Materials	4b,000
Direct Labor	62,000
Indirect Overheads	15,000
Repair and Maintenance	5,000
Depreciation	6,000
Insurance	4,000

If component Z is outsourced the following additional expenses will be incurred :

Carriage	₹ 2 per unit
Inspection Charges	₹ 10,000 per annum

You are required to provide the information whether to buy the component or make it.

3. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) Explain the similarities and dissimilarities in Management Accounting and Financial Accounting.

(b) From the following data, calculate break-even point in terms of units and ₹. And also calculate BEP, if selling price is reduced by 10%.

Fixed	₹ 1,00,000
Depreciati	₹ 1,00,000
Salaries	
Variable expen es	₹ 3 per unit
Material	2 per unit
Labour	t to per unit
Selling price	

(c) Lalit Co. has just been established, the to produce a product named estimated cost is as under :

Material per wilt	4
Labor per	16
Variable	10
Fixed cost	,00,000

Find out :

(i) If selling price is ₹ 40 per unit, then how many units have to be sold to

(a) Break even

(b) Make a profit of ₹ 60,000

(ii) If the demand of the product is 30000 units what selling price must be decided to :

(a) even

(b) Make a profit of 10 A on sales

4. Attempt any *two* Pith oft from (b) and (c). (2× =10 Marks)

(a) What do understand cost Explain all the types of cost.

(b) Explain the importance and limitation of break-even analysis.

(c) Prepare the cost sheet from the following information

	(₹)
Opening stock of raw material	10,000
Purchase of raw material	50,000
Closing stock of material	5,700
Direct wages	25,090
Direct expenses	15,000
Salary of office	17,000
Salary for selling department	12,000
Rent and rates	4,500
Repairs and maintenance of plant	3,200
Repairs and maintenance of Office furniture	1,700

Following additional information are given :

Value of Wilding	3,00,000
Value of furniture	50,000

Provide depreciation on building and furniture @ 5% and 10% res.. Depreciation and electricity are to be distributed in the ratio of 3 : 2 : 1 for factory, office and selling departments. The Company earned the profit of 10% on cost.

5. Attempt any *two* parts of choice from (a), (b) and (c). (2x5=10 Marks)

(a) What is the difference between expenses and overheads ? Explain all types of element of cost.

(b) Illustrate all the methods of calculating break-even point.

(c) How is the profit calculated in management accounting ? Prepare the format of cost sheet.

BBA-303

B. B. A. (THIRD SEMESTER)

MID SEMESTER EXAMINATION, 2019

STATISTICS FOR BUSINESS DECISIONS

Time : 1: 30 Hours

Maximum Marks : 50

Note :(i) All questions are compulsory.

(ii) Answer any *two* sub questions among (a), (b) and (c) in each main question.

(iii) Total marks for each main question are **ten.**

1. Attempt any *two* parts of choice from (a), (b) and (c). (2x5=10 Marks)

(a) Define Statistics. Write *five* essential characteristics of statistics.

(b) What is the importance of statistics in Commerce ?

(c) Convert the following mid value serried into exclusive series :

Mid value	
5	15
10	5
15	10
20	12
25	15

2. Attempt any *two* parts of choice from (a), (b) and (c). (2x5=10 Marks)

(a) What do you mean by Tabulation ? Explain its format

(b) What is a diagram ? Explain Pie diagram and frequency polygon.

(c) Calculate Q1, Q3 and D6 from the following data

S (above)	Frequency
0	40
10	36
20	31
30	24
40	14
50	6
60	2

3. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) Discuss the importance and limitations of graphical representation of data.

(b) Prepare a Pie diagram representing the following data relating to cost of construction of a college building :

Expenses on	Cost (Lakh ₹)
Bricks	5
Cement	5
Timber	10
Marble	4
Labour	20
Others	6
Total	50

•(c) Convert the following into Less than and More than cumulative frequency

Wages (t)	No. of workers
0--10	3
10-20	8
20-30	9
30-40	14
40-50	6

4.. Attempt any *two* parts of choke from (a), (b) and (c). (2x5=10 Marks)

(a) Define a central tendency and state the relationship between Mean, Median and Mode.

(b) The following data are given :

Marks	No. of students
20-24	5
25-29	10
30-34	12
35-39	15
40-44	10
45--49	8

Calculate Arithmetic Mean.

(c) Find out the median from the following data :

Mid value	Frequency
15	3
25	7
35	12
45	20
55	30
65	20
75	.. 6
85	2

5. Attempt any *two* parts of choice limn (a), (b) and (c). (2×5=10 Marks)

(a) Define dispersion. Compare and contrast mean deviation and standard deviation.

(b) Calculate standard &view from the following data :

Class	Frequency
0—10	3
10-20	5
20-30	10
30-40	12
40-50	7
50-60	.3

(c) The score ad two batsmen X and Y in

X	• Y
10	40
44	CO
32	
58	
O.	50
24	56
42	
So	

Cabala* and stage which Batsman b more consistent.

WD SEMESTER 2019

INDIA'S DIVERSITY AND BUSINESS

Time : 4 : 30 Hours

Maximum Marks : 50

Note : (i) All questions are compulsory

(ii) Answer any two sub questions among (a), (b) and (c) in each main question.

(iii) Total marks in each main question are ten.

Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

(a) What is religious diversity ? Indicate *four* major religions of India.

(b) Write a note on Kinship.

(c) Do you agree that relationship between occupational structure and economic development ?

2. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

   (a) What should be the contribution of youth it agricultural development ?

   (b) Suggest few strategies to promote Indian crafts at international platform.

   (c) What are the key steps can be taken to develop Indian agriculture ?

3. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

   (a) What is political and social framework of our country ?

   (b) What are the advantages and disadvantages of national policies on food and agriculture

   ( ) l and push factors behind migration from rural to urban areas ?

4. Attempt any *two* parts of choice from 4), (b) and (c). (2x5=10 Marks)

   (a) What is the importance of arranged marriages in India ?

   (b) Write a note on famous handicrafts of Jammu & Kashmir.

   (c) Why is it important to change cropping pattern ?

5. Attempt any *two* parts of choice from (a), (b) and (c). (2×5=10 Marks)

   (a) What is the balance between industrial development and the environment ?

   (b) What to Migration and Immigration ? How does it affect the limited resources

   (a) How does culture affect learning ?
