END SEMESTER EXAMINATION, 2019

BUSINESS ENVIRONMENT

Time : Three Hours

Maximum Marks : 100

Note : (i) All questions are compulsory.

(ii) Answer any *two* sub questions among (a), (b) and (c) in each main question.

1. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks) (CO1)

   (a) Explain the components of Macro Environment.

   (b) Do you think Business Environment study is important for a manager ? Explain.

   (c) Elucidate the concept of VMOSA in detail.

2. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks) (CO2)

   (a) Elucidate various economies along with its advantages and disadvantages.

   (b) Explain the role of public sector in India.

   (c) Define Small Scale Industries along with its importance and types.

3. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks) (CO3)

   (a) Discuss the main features of Companies Act, 1956.

(b) Elucidate the various rights of consumer under Consumer Protection Act.

(c) Explain the various objectives under Industrial Policy, 1991.

4. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks) (CO4)

(a) Discuss the various strategies of globalization with example.

(b) What do you understand by business ? Briefly explain its objectives and scope.

(c) Explain three-tier machinery under Consumer Protection Act in detail.

5. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks) (CO5)

(a) Explain the role of Planning Commission and NDC in Economic Planning in India.

(b) What is Business Environment ? Explain its importance.

(c) Discuss Liberalization of Indian Economy and its impacts on business and economy.

No.

(BBA)

End Semester Examination 2019

III Semester

Paper Name: Management Accounting

MM: 100

Time: Three Hours

Note:

(i) All Questions are compulsory.

(ii) Answer any two sub questions in each main question.

(iii) Total marks for each main question is twenty

(2X 10 = 20 Marks)

Q1. CO-1

a. What do you understand by cost accounting? What are its main functions?

b. Define the term Cost .Explain all the types of cost.

c. Differentiate between management accounting and financial accounting.

(2X 10 = 20 Marks)

Q2. CO-2

a. What is Management Accounting? What is significance of Management Accounting?

b. The manager furnishes you the following information:

	Rs.
Sales	6, 00,000
Variable cost	4, 50,000
Fixed cost	47,500
Profit	87,500
Units Produced: 20000	

Calculate:

(a) P/V Ratio

(b) BEP

(c) Target profit for a sales of rs. 700000

(d) Required sale for a profit of Rs. 100000

(e) Required selling price to earn the profit @ 20% on sales.

C . Prepare statement of cost from the following information:

Purchase of raw material	7,00,000
Wages:	
Direct	3,12,000
Indirect	30,000
Salaries:	
Work	1,30,000
Administrative	1,20,000
Sales staff	2,40,000
Advertisement	15,000
Power	62,000
Maintenance:	
Plant	51,000
Building	40,000
Freight outward	2,05,000
Rent	40,000
Depreciation:	

Plant	38,000
Building	25,000

Stock	Opening	Closing
Raw Material	55,000	60,000
WIP	15,000	20,000
Finished goods	40,000	45,000

During the year firm earned the profit of 25% of cost . Rent is shared between plant and administration in The ratio of 3:1.

Q3. CO-3 (2X 10 = 20 Marks)

a. What do you understand budgetary control? Explain the advantages and limitation of budgetary control.

b. Prepare Flexible budget for 60%, 80% and 100% capacities from the information given below;

	Rs.
Fixed Expenses:	
Salary	60000
Lighting	6500
Semi Variable Expenses:	
Salesman Commission	10000
Maintenance	2000
Variable Expenses:	
Labor	30000
Material	10000

Above information are given at 50% capacities. Semi variable expenses are increasing @10% between 70% to 90% capacities, they further increase @15% between 90% to 100% capacities. Sales at 50% capacity is 200000.Calulate profit for each capacities.

c. Discuss the importance and limitations of BEP-Analysis .

Q4. CO-4 (2X 10 = 20 Marks)

a . Explain the limitations and advantages of Break even analysis.

b. From the following information, Calculate BEP with the help of table and formula:

Units: 15000, 30000, 45000, 60000, 75000, 90000

FC = 15000

S.P. = 4.25 per unit

VC = 4 per unit

c. . ABC Co. ltd. has the balance of the cash on 1st April 2008, RS. 20, 000. Their subsequent transactions are as follows:

Months	Sales	Purchases	Wages	Other expenses
February	60000	35000	8500	1000
March	70000	45000	9500	2500
April	85000	42000	5500	3500
May	75000	28000	4500	2800
June	52000	18000	3000	2100

Additional Information:

1. Interest of amounting Rs. 3500 is to received in the month of April.
2. 15% sales are cash and 50% to be received in next month and remaining is to be received after following month.
3. Creditors allowed 2 months credit.
4. Lag in payment of wages 1/4 month

a . What is CVP analysis? What is its importance? (2X 10 = 20 Marks)

b . The manager furnishes you the following information:

	Rs.
Sales	6, 00,000
Variable cost	4, 50,000
Fixed cost	47,500
Profit	87,500
Units Produced: 20000	

Calculate:

(f) P/V Ratio
(g) BEP
(h) Target profit for a sales of rs. 700000
(i) Required sale for a profit of Rs. 100000
(j) Required selling price to earn the profit @ 20% on sales.

C . B private limited is producing component Z. It is under discussion whether to continue the production of Z or to purchase it from outside supplier.

The annual requirement of component Z is 15,000 units & the lowest quotation from outside supplier is Rs. 7 per unit. If it is manufactured then following expenses are incurred:

Materials	Rs. 40,000
Direct Labor	Rs. 62,000
Indirect Overheads	Rs. 15,000
Repair & Maintenance	Rs. 5,000
Depreciation	Rs. 6,000
Insurance	Rs. 4,000

If component Z is outsourced following additional expenses will be incurred:

Carriage	Rs. 2 per unit
Inspection Charges	Rs 10,000 per annum

You are required to provide the information whether to buy component or make it.

Roll No. .....

BBA–303

B. B. A. (THIRD SEMESTER)

END SEMESTER EXAMINATION, 2019

STATISTICS FOR BUSINESS DECISION

Time : Three Hours

Maximum Marks : 100

Note : (i) All questions are compulsory.

(ii) Answer any *two* sub-questions among (a), (b) and (c) in each main question.

1. Attempt any *two* parts of choice from (a), (b) and (c). (2×10=20 Marks)

(a) 'Statistics plays an important role not only in the study of Economics and Commerce, but also in managerial decision-making.' Explain briefly.

(CO1)

(b) Following data relate to the faculty-wise enrolment of students in a college :

Years	2004	2005	2006
No. of Arts Students	95	110	120
No. of Science Students	160	170	165
No. of Commerce Students	75	95	110

Represent the data by bar diagram. (CO2)

(c) What is meant by classification ? Explain four types of classification.

(CO1)

2. Attempt any *two* parts of choice from (a), (b) and (c). (2×10=20 Marks)

(a) What are the tests of skewness ? Give a relationship between mean, median and mode for a moderately skewed distribution. (CO1)

(b) Find SD and CV from the following data : (CO3)

Age (less than)	No. of persons
10	15
20	30
30	53
40	75
50	100
60	110
70	115
80	125

(c) The mean annual salary of all the employees in a factory was ₹ 3,000. The mean annual salaries paid to male and female employees are ₹ 3,200 and ₹ 2,200 respectively. Determine the percentage to male and female employed in the factory. (CO3)

3. Attempt any *two* parts of choice from (a), (b) and (c). (2×10=20 Marks)

(a) What is correlation ? Explain the implications of positive and negative correlation. (CO4)

(b) Compute coefficient of correlation : (CO4)

Aptitude Score (X)	Productivity (Y)
1	9
3	10
5	11
7	14
9	15
2	8
4	12
6	13
8	16

(c) Explain the concept of regression and write down the equations of the regression lines. (CO4)

4. Attempt any *two* parts of choice from (a), (b) and (c). (2×10=20 Marks)

(a) What is time series ? Explain the objectives of the analysis of a time series. (CO5)

(b) On the basis of the following data, obtain regressions of :

(i) Y on X

(ii) X on Y (CO4)

X	Y
15	12
27	15
27	15
30	18
38	22
46	26

(c) Obtain trend value by fitting trend line by least square method to the given data. Also estimate the trend for 2003 : (CO4)

Year	Sales (in ₹ '000)
1997	10
1998	12
1999	15
2000	16
2001	18
2002	19

5. Attempt any *two* parts of choice from (a), (b) and (c). (2×10=20 Marks)

(a) Define probability distribution. State the multiplicative rule of probability. (CO5)

(b) A bag contains 8 red and 5 white balls. Two successive drawings of 3 balls are made (i) balls are replaced before the second trial (ii) the balls are not replaced before the second trial. Find the probability that the first drawing will give 3 white and the second 3 red balls. (CO6)

(c) What is meant by theoretical probability distribution ? Define the binomial probability distribution. (CO6)

END SEMESTER EXAMINATION, 2019

LEGAL ASPECTS OF BUSINESS

Time : Three Hours

Maximum Marks : 100

Note : (i) All questions are compulsory.

(ii) Answer any *two* sub-questions among (a), (b) and (c) in each main question.

1. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks)

(a) Explain the meaning of law. What are the different sources of law in India ? (CO1)

(b) Solve the following legal problems in pursuance of Indian Contract Act, 1872 : (CO3)

(i) A husband agreed to pay £30 to his wife every month while he was abroad. As he failed to pay the promised amount, his wife sued him for the recovery of the amount. Will she succeed ?

(ii) A promised to paint a picture for B a certain day at a certain day at a certain price. A dies before that day. Discuss, whether contract can be enforced.

(c) What is contract of bailment ? What are duties of Bailor and Bailee ? (CO2)

2. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks)

(a) What do you mean by "subject-matter" of a contract of sale ? Discuss the various types of goods which form the subject-matter of a contract of sale. (CO2)

(b) Solve the following problem : (CO3)

At a sale by auction without reserve, the auctioneer is instructed not to sell for less than a certain price. The auctioneer accepts the highest bonafide bid which however is lower than the reserve price (i) is the sale valid (ii) what are the rights of the principal against the auctioneer ?

(c) Delivery of goods and payment of price are concurrent conditions. Explain in the terms of performance of contract of sale. (CO2)

3. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks)

(a) In what cases can an applicant file a complaint to information commission ? Who is a public authority under RTI Act, 2005 ? (CO5)

(b) Who is a holder and holder in due course ? Describe the types of negotiable instruments on the basis of their negotiability. (CO6)

(c) Write a note on consumer dispute redressal agencies with their composition. (CO4)

4. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks)

(a) Define the term company. Explain and illustrate the characteristic of a company. (CO3)

(b) What are the various steps involved in the incorporation of LLP under the LLP Act, 2008 ? List the various documents required to be filed with the registrar in this regard. (CO4)

(c) Who can become partner in a LLP ? What are disqualifications for becoming partner ? Elaborate your answer with special reference to designated partner. (CO5)

5. Attempt any *two* parts of choice from (a), (b) and (c). (10×2=20 Marks)

(a) Who are directors of a company ? How are they appointed ? (CO5)

(b) A company issued a prospectus inviting subscription of shares. The prospectus contained a statement that the objects of issue of shares are :

(i) Alteration in companies share capital
