END SEMESTER EXAMINATION JUNE 2024

Bachelor of Business Administration **Semester: IV**

Business Research **BBA 401**

Time :180 Minutes **Maximum Marks:100**

Note:

(i) Answer all the questions by choosing any TWO of the sub questions
(ii) Each question carries 20 Marks.

Q1	(20 Marks)	
(a)	The mean of a certain production process is known to be 50 with a standard deviation of 2.5.The production manager may welcome any change in mean value towards higher side but would like to safeguard against decreasing value of mean . he takes a sample of 12 items that gives a mean value of 48.5.What inference should the manager take for the production process on the basis of sample results? Use 5% level of significance. CO4/CO5	
(b)	The mean of two random samples of 1000 and 2000 are 67.5 and 68 inches respectively. Can the samples be regarded to have been drawn from the same population of standard deviation 9.5 inches ?.Test at 5% sig level' CO4/CO5	
(c)	Briefly describe the different steps involved in a research process. (CO2)	
Q2	(20 Marks)	
(a)	A random sample from 200 villages was taken from Kanpur district and the average population per village was found to be 420 with a standard deviation of 50. Another random sample of 200 villages from the same district gave an average population of 480 per village with a standard deviation of 60. Is the difference between the averages of two samples statistically significant? Take 1% level of significance. CO4/CO5	
b	Suppose assembly elections are announced in three major states. A major political party wishes to test if the propotion of its supports in the three states are the same or not. The party conducts a sample survey of 1000people in each state and finds that there are 300,350 and 425 supporters in the sample in the surveyed state. Using these data test if the three proportions are the same or not. CO4/CO5	
c	A sample of 600 persons selected at random from a large city gives the result that males are 53%. Is there reason to doubt the hypothesis that males and females are in equal number in the city? Use 1% level of significance. CO4/CO5	
Q3	(20 Marks)	
(a)	Explain and illustrate the following research designs: (i) Two group simple randomized design (ii) Latin square design (iii) Simple factorial design (iv) Any 2 informal experimental designs (CO2,CO3)	

b)	Explain the requirement of measure of dispersion. Co1	
(C)	Define Classification of measurement scales. Co1	
Q4	(20 Marks)	
(a)	Suppose the following 10 values represent random observation from a normal parent population: 2,6,7,9,5,1,0,3,5,4 Construct a 99%confidence interval for the mean of parent population. CO4/CO5	
(b)	Define central limit theorem.	
(c)	A certain population is divided into five strata such as 2000,2000,1800,1700 and 2500. Respective standard deviations are 1.6,2.0, 4.4,4.8 and 6.0 and further the expected sampling cost in the first two strata is Rs4/- per interviewand in the remaining three strata the sampling cost is Rs 6/- per interview. How should a sample of size n=226 be allocated to five strata if we adopt proportionate sampling design. If we adopt disproportionate sampling design considering i) Only the difference in stratum variability ii) Differences in stratum variability as well as the difference in stratum sampling cost. CO4/CO5	
Q5	(20 Marks)	
(a)	From a random sample of 36 New Delhi civil service personnel, the mean age and the sample standard deviation were found to be 40 and 4.5 year respectively. Construct a 95% confidence interval for the mean age of civil servant in India. CO4/CO5	
(b)	It is claimed that Americans are 16 pounds overweight on average. To test this claim, 9 randomly selected individual were examined and the average excess weight was found to be 18 pounds. At the 5% level of significance, is there reason to believe the claim of 16 pound to be in error. CO4/CO5	
(c)	In a random selection of 64 of the 2400 intersections in a small city, the mean number of scooter accidents per year was 3.2 and the sample standard deviation was 0.8. 1. Make an estimate of the standard deviation of the population from the sample standard deviation. 2. Work out the standard error of mean for this finite population. 3. If the desired confidence level is 0.90, what will be the upper limit and lower limit of the confidence interval for the mean number of accidents per intersection per year. CO4/CO5

End Semester Examination June 2024

Name of the Course: BBA

Semester: IV

Name of the Paper: INTERNATIONAL BUSINESS

Paper Code: **BBA-402**

Time: 3 Hours

Maximum Marks: 100

Note:-

(i) All questions are compulsory.
(ii) Answer any two sub questions among a, b & c in each main question
(iii) Total marks in each main question are twenty.
(iv) Each question carries 10 marks

Q1	(20marks)	**CO 1, 3, 5**
(a)	Give a brief account of the economic, political and cultural environment of business between nations and their implications for business	
(b)	Stages of Internationalization represent the evolution of business, Explain?	
(c)	"Firms need global orientation even to survive the domestic market" — Elucidate.	
Q2	(20 marks)	**CO 2, 6, 4**
(a)	Explain National Competitive Advantage Model.	
(b)	**Suggest a suitable trade possibility between Country X & Country Y for Product A & Product B using comparative advantage model.**	
(c)	Illustrate the International Product Life Cycle theory.	
Q3	(20 marks)	**CO1, 3**
(a)	What is Export Inspection & how can an exporter apply for Inspection Certificate?	
(b)	Clearing & Forwarding Agents have a crucial role in processing Trade, explain the role of Clearing & Forwarding Agents.	
(c)	Taking example of an EPC explain the functions of EPC for an Exporter.	
Q4	(20 marks)	**CO 2, 3, 5**
(a)	IMF is international organization which support the nations against their BoP situations In the light of the statement evaluate the role of IMF.	
(b)	Explain various challenges of global business and the advantages and advantages of Regional Trade Blocks	
(c)	Illustrate and explain the Structure of WTO.	
Q5	(20 marks)	**CO 2, 4, 5**
(a)	Exemplify and explain the various types of Trading Blocks.	
(b)	Establish & explain the role of WTO to support Trade in India.	
(c)	Discuss the need to replace GATT with WTO in 1995.	

	Country X	Country Y
Product A	100	240
Product B	80	40

Name of the Course: BBA **Semester:** IV

Name of the Paper: Advance Tax Planning **Paper Code:** **BBA404AC**

Time: 3 Hours **Maximum Marks: 100**

Note:-

(i) All questions are compulsory.
(ii) Answer any two sub questions among a, b & c in each main question
(iii) Total marks in each main question are twenty.
(iv) Each question carries 10 marks

Q1 (20marks)

(a) Ms. Neelima, a resident of Delhi, was employed by LMN Ltd. upto 15, March, 1992. At the time of leaving LMN Ltd., she was paid ₹ 3,50,000 as leave salary out of which ₹ 59,000 was exempted from tax under section 10(10AA). Thereafter, she joined CD (P) Ltd. and received ₹ 4,14,000 as leave salary at the time of retirement on December 31, 2022. In addition she received a gratuity of ₹ 12,00,000 from the employer (she is not covered by the Payment of Gratuity Act, 1972).

The following information is available:

Average salary received during 11 months ending on December 31, 2022

From February 1 to July 31 (p.m.)	₹ 22,600
From August 1 to December 31 (p.m.)	₹ 22,900
Duration of service	14 years 7 months
Leave entitlement for every year of service	45 days
Leave availed while in service	90 days
Leave at her credit at the of retirement	18 months

She received ₹ 5,20,000 from unrecognized provident fund of which she was a member (This constitutes employee's contribution ₹ 2,00,000; employer's contribution ₹ 2,10,000; interest on employee's contribution ₹ 60,000; interest on employer's contribution ₹ 50,000).

You are required to compute her total income for the assessment year 2023-24, clearly showing all workings. (Ignore section 115BAC provisions).

CO4/CO5

(b) In the context of Tax Return Preparer Scheme, 2006, explain the following:

i. **Eligible Persons**
ii. **Educational Qualifications of Tax Return Preparer**
iii. **Persons not entitled to act as return preparer**

(c) Miss Nitya, proprietor of M/s. Honest Enterprise, a registered supplier of taxable goods and services in the state of West Bengal, pays GST under regular scheme. It is not eligible for any threshold exemption. It provided the following

CO1/CO2

information for the month of December 2022:

S. No	Particulars	Amount (Rs.)
	OUTWARD SUPPLY:	
(i)	Intra-state supply of goods to M/s. Natural & Sons	7,00,000
(ii)	Intra-state transfer of goods to its branch office in the state of West Bengal. Both places are under the same GSTIN.	1,00,000
(iii)	Provided inter-state supply of sponsorship services to XYZ Ltd of Chennai	80,000
(iv)	Advance received for future supply of management consultancy service to Mr. Sharad (Intra-state supply)	40,000
	INWARD SUPPLY: (Intra-state)	
(i)	Purchase of taxable goods from registered suppliers.	8,00,000
(ii)	Availed Works Contract service for repair of office building. Amount of repair was debited in the profit & loss account.	30,000
(iii)	Availed legal service form an advocate to represent the matter in the Court relating to collection of disputed proceed from customers.	50,000

Notes:

i. Rate of CGST, SGST and IGST on all supplies are as below:

Particulars	CGST	SGST	IGST
Goods	2.5%	2.5%	5%
Supply of services	9%	9%	18%

ii. Both inward and outward supplies given above are exclusive of taxes.

iii. All the conditions necessary for availing the ITC have been fulfilled.

iv. Working note should form part of the answer.

Calculate the net minimum GST payable in cash by M/s. Honest Enterprise for the month of December 2022.

CO4/CO5

Q2 (20 marks)

(a) **Briefly explain the provisions relating to reversal of input tax credit in case of non-payment of tax by the supplier and re-availment thereof?**

CO1/CO2

(b) Mr. A retired on 28.7.2020 after completing 25 years and six months of service and received a

gratuity of INR 15,00,000. During retirement, his salary was:

Basic Salary: INR 40,000 p.m.

Dearness Allowance: INR 15,000 p.m. (of which 60% is for retirement benefits)

Commission: 1% of turnover (in the last 12 months, turnover was INR 1,20,00,000)

Bonus: INR 30,000 p.a.

	Computation of his taxable gratuity assuming: **(a) He is a private sector employee and covered by the Payment of Gratuity Act 1972.** **(b) He is a private sector employee and not covered by the Payment of Gratuity Act 1972.** **(c) He is a Government employee.**	**CO4/CO5**
(c)	Mr. Swagat purchased a building of Rs. 4,75,000 on 21st May, 2001. He made the following additions / alterations to the building. Cost of construction of 1st floor in financial year 2003-04 Rs. 2,50,000. Cost of construction of 2nd floor in financial year 2010-11 Rs. 3,60,000. He sold above property on 20th November, 2021 for Rs. 40,50,000. He invested Rs. 1,00,000 in Rural Electrification Corporation Limited (RECL) bonds on 30th November, 2021. The Cost Inflation Index (CII) for financial year are as follows: Financial Year — CII 2001-02 — 100 2003-04 — 109 2010-11 — 167 2021-22 — **317** **Compute the capital gains for Mr. Swagat for Assessment Year 2022-23**	**CO4/CO5**
Q3	(20 marks)	
(a)	**Explain the procedure for revocation of cancellation of registration where the registration of a person is cancelled suo-motu by the proper officer as per the provisions of CGST Act, 2017.**	**CO1/CO2**
(b)	Smt. Rajalakshmi owns a house property at Adyar in Chennai. The municipal value of the property is ₹ 5,00,000, fair rent is ₹ 4,20,000 and standard rent is ₹ 4,80,000. The property was let-out for ₹ 50,000 p.m. up to December 2019. Thereafter, the tenant vacated the property and Smt. Rajalakshmi used the house for self-occupation. Rent for the months of November and December 2019 could not be realised in spite of the owner's efforts. All the conditions prescribed under Rule 4 are satisfied. She paid municipal taxes @12% during the year. She had paid interest of ₹ 25,000 during the year for amount borrowed for repairs for the house property. **Compute her income from house property for the A.Y. 2020-21.**	**CO4/CO5**
(c)	**List any 5 (Five) activities/transactions specified under Schedule III of the CGST Act, 2017 which shall be neither treated as supply of goods nor as supply of services. Detailed explanations is not required.**	**CO1/CO2**
Q4	(20 marks)	
(a)	MR. Sarma is employed with M/s Rekha Traders. He gives you the following information for the previous year 2021-22. 1. Basic salary Rs. 9,00,000 per annum 2. Bonus received Rs. 2,00,000 3. Children Education Allowance Rs. 8,000 per annum (exempt Rs. 3,400 per annum)	**CO4/C**

	4. Dearness Allowance Rs. 2,80,000 per annum 5. Entertainment Allowance Rs. 90,000 per annum 6. House Rent Allowance Rs. 90,000 per annum (Exempt Rs. 30,000) 7. Uniform Allowance Rs. 24,000 per annum 8. Profession Tax Rs. 4,500 per annum paid 9. Medical insurance paid in cash Rs. 10,000 and paid by cheque Rs. 20,000 10. Purchase of national Saving Certificate VIII issue Rs. 30,000 **Compute his taxable income for the Assessment Year 2022-23**	**O5**
(b)	**Who are not eligible to opt for composition scheme for goods under GST Laws?**	**CO1/CO2**
(c)	Define Income from other sources. Explain the deductions allowed for income from other sources.	**CO1/CO2**
Q5	(20 marks)	
(a)	Mr. Mehra owns a house at Delhi, which is let-out. Fair rent of the house is Rs.24,000 whereas actual rent received is Rs.30,000. He also received Rs. 10,000 from the tenant for charges towards lift, generator and security. He makes the following expenditure in respect of the house property: 1. Municipal taxes paid by Mehra Rs.4,000 2. Fire Insurance Rs.2,400 3. Collection Charges Rs.500 4. Repairs Rs.2,000 5. Land Revenue Rs.3,800 6. Ground Rent Paid Rs.2,000 Interest on borrowed capital during the previous year 2015-16 is Rs.4,000. Funds borrowed on April 1, 2012, Rs.40,000 @ 10% interest p.a. were used for construction of the house which was completed on March 31, 2016. **Compute the income earned by Mr. Mehra from his let out house property during the assessment year 2016-17.**	**CO4/CO5**
(b)	**List the deductions allowed from the annual value in computing taxable income from house property.**	**CO1/CO2**
(c)	GTA services provided to an unregistered person (including unregistered casual taxable person) are exempt from GST by virtue of Entry 21 A of GST Laws. **Discuss the validity of above statement.**	**CO1/CO2**
